**A**

abscess, tubo-ovarian: a study of 17 patients (*sci*), April, p. 181  
 ACE inhibitors as initial therapy for hypertension (*sci*), April, p. 139  
 achalasia (*sci*), March, p. 201  
 adolescent(s)  
   —Dupuytren's contracture in (*sci*), April, p. 133  
   —immunization policy cannot eradicate measles in (*med*), May, p. 290  
 adolescent alcohol users, serum iron concentrations in (*tip*), May, p. 325  
 adolescent depression, binge eating, purging and (*tip*), February, p. 382  
 aerodigestive tract invasion by thyroid cancer (*tip*), June, p. 278  
 aging skin (*sci*), February, p. 219  
 AIDS  
   —guidelines for school programs to prevent the spread of (*news*), March, p. 419  
   —pediatric, neurologic syndromes in (*tip*), April, p. 367  
   —suicide prevalence in patients with (*tip*), June, p. 237  
   —T-cell lymphoma in (*tip*), June, p. 273  
 AIDS patients, *M. avium* complex in (*tip*), March, p. 384  
 AIDS-related lymphoma, combination chemotherapy for (*tip*), February, p. 388

AIDS research alters outlook on treatment methods (*news*), May, p. 389  
 air travel, prevention of medical emergencies during (*sci*), February, p. 263  
 albuterol, nebulized vs. metered-dose inhalation of (*tip*), January, p. 357  
 alcohol consumption  
   —and atrial fibrillation (*tip*), April, p. 282  
   —may lead to hypertension in women (*med*), February, p. 350  
 alcohol, stroke and coronary artery disease (*sci*), March, p. 217  
 alcohol use  
   —increases risk of anesthetic side effects (*med*), February, p. 349  
   —during pregnancy (*tip*), January, p. 339  
 alcohol users, adolescent, serum iron concentrations in (*tip*), May, p. 325  
 alcoholics, children of: intervention improves outlook (*news*), April, p. 378  
 alcoholism, diagnosis of (*sci*), June, p. 175  
 aldosteronism, primary, mineralocorticoid escape in (*tip*), January, p. 296  
 allergic bronchopulmonary aspergillosis (*sci*), January, p. 177  
 amblyopia (*sci*), February, p. 275  
 amiodarone therapy, pulmonary and neurologic effects of (*tip*), January, p. 255  
 anemia  
   —of chronic renal failure, erythropoietin for (*sci*), June, p. 211  
   —pernicious, racial differences in (*tip*), February, p. 406  
 anesthesia, continuous epidural, in vascular surgery (*tip*), February, p. 427

anesthetic side effects, alcohol use increases risk of (*med*), February, p. 349  
 aneurysms, internal carotid artery, new procedure successfully removes (*news*), February, p. 453  
 angina  
   —calcium channel blockers plus beta blockers for (*tip*), February, p. 356  
   —in diabetic and nondiabetic patients (*tip*), May, p. 320  
   —headache (*tip*), February, p. 381  
   —variant, cold pressor test in (*tip*), January, p. 268  
   —variant, prognosis of patients with (*tip*), March, p. 406  
 angioplasty  
   —coronary artery stenosis after (*tip*), February, p. 387  
   —coronary, in octogenarians (*tip*), June, p. 255  
   —study shows coronary bypass surgery is superior to (*med*), June, p. 220  
 angiotensin-converting enzyme activity in hyperthyroidism (*tip*), January, p. 311  
 anion gap in patients with occult myeloma (*tip*), April, p. 362  
 anorexia nervosa, weight gain does not correct dyslipoproteinemia in (*med*), May, p. 289  
 antihistamines for upper respiratory infections, use of (*tip*), June, p. 273  
 antihypertensive therapy, improving compliance with (*sci*), January, p. 142  
 aorta, coarctation of, recognition of (*tip*), February, p. 432  
 aortic dissection, acute, intravenous labetalol in (*tip*), January, p. 301  
 appendicitis  
   —childhood, accuracy of barium enema in (*tip*), March, p. 383  
   —in children (*tip*), April, p. 327  
 arginine vasopressin level, plasma, after acute myocardial infarction (*tip*), March, p. 341

arm vs. treadmill exercise (*tip*),  
March, p. 349  
arterial appearance defines  
pathogenesis of coronary  
syndromes (*med*), March, p. 300  
arteriography, carotid,  
intraoperative, techniques in  
(*tip*), January, p. 277  
arthritis, reactive, associated with  
giardiasis (*tip*), April, p. 299  
artificial feeding: ordinary care or  
optional treatment? (*tip*), April,  
p. 342  
ascites, cost-effective methods of  
treating (*sci*), May, p. 141  
aspergillosis  
—bronchopulmonary, allergic  
(*sci*), January, p. 177  
—invasive (*tip*), February, p. 368  
aspirin  
—for prevention of myocardial  
infarction (*tip*), March, p. 331  
—and streptokinase reduce heart  
attack deaths (*med*), June, p. 219  
aspirin therapy  
—chronic (*tip*), March, p. 305  
—in Kawasaki syndrome (*tip*),  
June, p. 288  
asymptomatic patient with a positive  
VDRL test (*sci*), January, p. 185  
atherosclerosis  
—high levels of CMV antibody in  
(*tip*), January, p. 345  
—in the younger patient (*tip*),  
January, p. 270  
athletics, preparticipation evaluation  
for (*tip*), March, p. 373  
atonic seizures (*tip*), January, p. 318  
atrial myxoma, rapid growth of (*tip*),  
May, p. 298  
atrial natriuretic peptide  
—with cardiac pacing (*tip*),  
January, p. 290  
—spontaneous tachycardia and  
(*tip*), January, p. 324  
atrial thrombus, right (*tip*), January,  
p. 352  
attention deficit disorder,  
hyperactivity in children with  
(*tip*), May, p. 339

auditory evoked responses in infants,  
prenatal lidocaine and (*tip*),  
May, p. 378  
autologous blood, predeposited (*ed*),  
May, p. 98

## B

back pain and sciatica (*tip*),  
May, p. 355  
bacteremia, streptococcal, Group A  
beta-hemolytic (*tip*), February,  
p. 428  
bacterial antigens, latex agglutination  
kits for (*tip*), January, p. 346  
bacterial meningitis  
—acute illness two weeks after  
(*tip*), January, p. 336  
—with normal CSF (*tip*), February,  
p. 421  
bacterial peritonitis, spontaneous  
(*sci*), March, p. 223  
baldness, female-pattern, minoxidil  
may be useful for (*med*), March,  
p. 299  
balloon dilatation of aortic  
coarctation (*tip*), February,  
p. 408  
balloon tamponade shows promise in  
bleeding duodenal ulcers (*med*),  
January, p. 252  
barium enema  
—accuracy of, in childhood  
appendicitis (*tip*), March, p. 383  
—endoscopy vs., for colon cancer  
detection (*tip*), June, p. 237  
battered woman (*sci*), January, p. 193  
Becker's nevus (*sci*), May, p. 221  
beta blockers  
—calcium channel blockers plus, for  
angina (*tip*), February, p. 356  
—lipophilic, improve mental  
performance (*med*), February,  
p. 349  
binge eating, purging and adolescent  
depression (*tip*), February, p. 382  
biopsy, punch, for diagnosis of  
pigmented skin lesions (*sci*),  
June, p. 123

bladder cancer, cytologic techniques  
in the diagnosis of (*tip*), January,  
p. 255  
blood pressure monitoring in panic  
disorder (*tip*), February, p. 417  
blood transfusion, perioperative, and  
immunosuppression (*tip*), May,  
p. 364  
bone loss in patients with  
hyperthyroidism (*tip*), February,  
p. 382  
Bouveret's syndrome, diagnostic  
considerations in (*tip*), March,  
p. 341  
bowel preparation for colorectal  
operations (*tip*), March, p. 406  
brain scans, preoperative, in  
breast cancer patients (*tip*), June,  
p. 261  
breast cancer  
—pericardial effusion associated  
with (*tip*), January, p. 273  
—premenopausal, hormone  
receptor status in (*tip*), January,  
p. 293  
—resectable, second malignancies  
after (*tip*), January, p. 323  
—use of mammograms to detect  
(*FDA*), March, p. 415  
—in young women, family history  
is key risk for (*med*), June, p. 219  
breast cancer detection, early (*tip*),  
January, p. 256  
breast cancer patients  
—natural cytotoxic activity in  
(*tip*), May, p. 374  
—preoperative brain scans in  
(*tip*), June, p. 261  
breast reconstruction results,  
subcutaneous mastectomy may  
improve (*med*), June, p. 220  
bronchitis, chronic, hydration and  
sputum production in (*tip*),  
February, p. 353  
bronchopulmonary aspergillosis,  
allergic (*sci*), January, p. 177  
bronchopulmonary dysplasia, home  
oxygen treatment of (*tip*),  
January, p. 289

- burned children, hyperbaric oxygenation is not needed for (*med*), April, p. 273
- burns, electrical, neurologic consequences of, reported (*med*), May, p. 290
- bypass grafting, coronary, heart rate responses after (*tip*), March, p. 316
- bypass grafts
  - coronary artery, acute occlusion of (*tip*), May, p. 309
  - coronary, right gastroepiploic artery for (*tip*), March, p. 350

- C**
- CA 19-9, serum, after surgery for pancreatic cancer (*tip*), February, p. 403
  - cactus spine removal (*tip*), March, p. 408
  - caffeine, psychotropic effects of (*sci*), May, p. 167
  - calcium channel blockers
    - plus beta blockers for angina (*tip*), February, p. 356
    - gynecomastia and (*tip*), May, p. 302
    - for peripheral vascular disease (*tip*), April, p. 314
  - cancer
    - bladder, cytologic techniques in the diagnosis of (*tip*), January, p. 255
    - breast, detection, early (*tip*), January, p. 256
    - breast, pericardial effusion associated with (*tip*), January, p. 273
    - breast, premenopausal, hormone receptors in (*tip*), January, p. 293
    - breast, resectable, second malignancies after (*tip*), January, p. 323
    - breast, use of mammograms to detect (*FDA*), March, p. 415
    - breast, in young women, family history is key risk for (*med*), June, p. 219
    - children with, varicella-zoster infection in (*tip*), March, p. 401
    - colonic, gastric and, *ras* oncogene p21 in (*tip*), March, p. 320
    - colorectal, mass screening for (*tip*), January, p. 294
    - colorectal, results of mass screening for, are reported (*med*), February, p. 349
    - esophageal, nonsurgical treatment of (*tip*), May, p. 312
    - gastric and colonic, *ras* oncogene p21 in (*tip*), March, p. 320
    - gastric, esophageal and, marker is found for (*med*), January, p. 252
    - of the head and neck, combination chemotherapy for (*tip*), May, p. 293
    - liver, percutaneous ethanol injection represents new treatment for (*news*), February, p. 458
    - lung, survival in (*tip*), June, p. 243
    - ovarian, flow cytometric ploidy status in (*tip*), June, p. 231
    - ovarian, second-look laparotomy in (*tip*), January, p. 280
    - ovarian, survival in (*tip*), March, p. 374
    - pancreatic, serum CA 19-9 after surgery for (*tip*), February, p. 403
    - rectal, sexual function after surgery for (*tip*), February, p. 443
    - thyroid, aerodigestive tract invasion by (*tip*), June, p. 278
    - thyroid, diagnostic imaging techniques in (*tip*), June, p. 238

#### cancer patients

- preoperative chest x-rays are important in (*med*), January, p. 252
  - pulmonary embolism in (*tip*), March, p. 393
- cancer treatment, sexual complications of (*sci*), March, p. 159

- carbon monoxide poisoning, occult (*tip*), May, p. 380
- carcinoid tumors, metastatic, combination chemotherapy for (*tip*), March, p. 342
- carcinoma
  - renal cell, bilateral (*sci*), May, p. 121
  - renal cell, recombinant interferon for (*tip*), January, p. 361
  - renal cell, with venous involvement (*tip*), January, p. 315
- cardiac arrest due to coronary artery spasm (*tip*), April, p. 324
- cardiac atrophy associated with weight loss, exercise prevents (*med*), February, p. 350
- cardiac complications of endoscopic sclerotherapy (*tip*), March, p. 402
- cardiac contusion in nonpenetrating chest injury, frequency of (*tip*), May, p. 345
- cardiac death, sudden, associated with exercise (*tip*), May, p. 310
- cardiac disease, school absence and (*tip*), March, p. 325
- cardiac pacemakers, unwarranted (*tip*), March, p. 322
- cardiac pacing, atrial natriuretic peptide with (*tip*), January, p. 290
- cardiac problems following Kawasaki disease (*tip*), April, p. 347
- cardiac syncope (*tip*), January, p. 305
- cardiac tamponade due to pneumopericardium (*tip*), April, p. 327
- cardiac tumors (*sci*), February, p. 301
- cardiac valve problems in adults with Down's syndrome (*tip*), January, p. 358
- cardiomyopathy and ectodermal dysplasia (*tip*), May, p. 331
- cardiovascular features of Marfan syndrome (*tip*), February, p. 440

- carotid artery, internal, asymptomatic occlusive lesions of (*tip*), April, p. 317
- carotid artery aneurysms, internal, new procedure successfully removes (*news*), February, p. 453
- cataracts in infancy (*tip*), April, p. 368
- catheters, urethral, long-term, in older women (*sci*), April, p. 103
- cerebral palsy
- asymptomatic newborns and risk of (*tip*), March, p. 315
  - and perinatal care (*tip*), May, p. 309
- cervical esophagus, penetrating injuries of (*tip*), April, p. 308
- cervigrams, comparison of Pap smears and (*tip*), June, p. 249
- cesarean births, decreased, active management of labor and (*tip*), May, p. 360
- cesarean delivery, vaginal birth after (*sci*), June, p. 167
- chancroid (*tip*), April, p. 332
- chemotherapy
- combination, for AIDS-related lymphoma (*tip*), February, p. 388
  - combination, for cancer of the head and neck (*tip*), May, p. 293
  - combination, for metastatic carcinoid tumors (*tip*), March, p. 342
  - radiotherapy and, after mastectomy (*tip*), February, p. 421
  - surgery and, for medulloblastoma (*tip*), February, p. 387
- chest injury, nonpenetrating, frequency of cardiac contusion in (*tip*), May, p. 345
- chest syndrome, acute, in children with sickle cell disease (*tip*), May, p. 377
- chest x-rays, preoperative, are important in cancer patients (*med*), January, p. 252
- child
- with fever, young (*sci*), June, p. 196
  - with short stature (*sci*), January, p. 230
- childhood
- primary hemochromatosis in (*tip*), February, p. 359
  - sclerosing cholangitis in (*tip*), March, p. 366
- children
- with acute lymphocytic leukemia, herpes zoster in (*tip*), April, p. 321
  - of alcoholics: intervention improves outlook (*news*), April, p. 378
  - appendicitis in (*tip*), April, p. 327
  - with attention deficit disorder, hyperactivity in (*tip*), May, p. 339
  - burned, hyperbaric oxygenation is not needed for (*med*), April, p. 273
  - with cancer, varicella-zoster infection in (*tip*), March, p. 401
  - with Down's syndrome, growth patterns in (*tip*), May, p. 380
  - fever in (*sci*), February, p. 127
  - gastroesophageal reflux in (*sci*), April, p. 201
  - gastroesophageal reflux in infants and (*tip*), February, p. 374
  - with head trauma, computed tomography in (*tip*), February, p. 435
  - hyperactivity in: changing diagnostic criteria (*sci*), March, p. 129
  - immunocompromised, inactivated poliovirus vaccine in (*tip*), March, p. 306
  - with leukemia, natural killer cells in (*tip*), March, p. 332
  - mycobacterial adenitis in (*tip*), April, p. 354
  - myocarditis in (*tip*), January, p. 267
  - propylthiouracil therapy of hyperthyroidism in (*tip*), February, p. 378
  - respiratory infections, acute, in (*tip*), February, p. 393
  - respiratory syncytial virus infections in (*tip*), March, p. 412
  - sexual abuse of, and maternal responses (*tip*), June, p. 224
  - with sickle cell disease, acute chest syndrome in (*tip*), May, p. 377
  - streptococcal perianal disease in infants and (*tip*), February, p. 427
  - suppurative thyroiditis in (*tip*), February, p. 410
  - TMJ dysfunction and facial pain in (*tip*), February, p. 418
  - young, reducing sleep disruptions in (*tip*), May, p. 382
- Chlamydia screening, cost-effectiveness of (*tip*), April, p. 352
- chloroquine-resistant *Plasmodium falciparum* (*tip*), March, p. 318
- cholecystitis during pregnancy, aggressive management of (*tip*), January, p. 280
- cholesterol update: new findings after treatment (*news*), January, p. 362
- chordae tendineae, ruptured, in mitral valve prolapse (*tip*), March, p. 384
- cigarette smokers, coronary artery stenosis in (*tip*), May, p. 328
- circadian variations in respiratory morbidity (*tip*), January, p. 277
- circumcise, decision to (*tip*), January, p. 308
- cirrhosis, portacaval shunts and hyperparathyroidism (*tip*), May, p. 302
- cluster headaches (*sci*), April, p. 173

CMV antibody in atherosclerosis, high levels of (*tip*), January, p. 345  
 coarctation  
     —of the aorta, recognition of (*tip*), February, p. 432  
     —aortic, balloon dilatation of (*tip*), February, p. 408  
 cocaine, cerebral vasculitis induced by (*tip*), January, p. 316  
 cocaine abuse, complications of (*tip*), April, p. 340  
 cold pressor test in variant angina (*tip*), January, p. 268  
 colon cancer detection, endoscopy vs. barium enema for (*tip*), June, p. 237  
 colonic cancer, gastric and, *ras* oncogene p21 in (*tip*), March, p. 320  
 colorectal cancer  
     —mass screening for (*tip*), January, p. 294  
     —results of mass screening for, are reported (*med*), February, p. 349  
 colorectal neoplasms, screening tests for (*tip*), February, p. 406  
 colorectal operations, bowel preparation for (*tip*), March, p. 406  
 communicating with patients who have psychiatric problems (*sci*), January, p. 161  
 communication disorders, assessing and treating (*sci*), February, p. 312  
 computed tomography in children with head trauma (*tip*), February, p. 435  
 conjugal bereavement (*tip*), April, p. 350  
 conjunctiva, approach to a dark spot on (*sci*), May, p. 151  
 contact lens care and complications (*sci*), April, p. 187  
 contraceptives, oral, smoking and (*tip*), January, p. 346  
 COPD, outpatient management of (*sci*), March, p. 265  
 coronary artery bypass grafts, acute occlusion of (*tip*), May, p. 309

coronary artery disease  
     —alcohol, stroke and (*sci*), March, p. 217  
     —major depression and (*tip*), April, p. 362  
     —prognosis of young adults with (*tip*), April, p. 313  
 coronary artery restenosis in cigarette smokers (*tip*), May, p. 328  
 coronary artery spasm, cardiac arrest due to (*tip*), April, p. 324  
 coronary artery stenosis after angioplasty (*tip*), February, p. 387  
 coronary bypass grafting, heart rate responses after (*tip*), March, p. 316  
 coronary bypass surgery is superior to angioplasty, study shows (*med*), June, p. 220  
 coronary disease risk in pubertal boys, passive smoking increases (*med*), January, p. 251  
 coronary syndromes, arterial appearance defines pathogenesis of (*med*), March, p. 300  
 coronary thrombosis, tissue plasminogen activator for (*sci*), March, p. 291  
 CT findings in acute and chronic pancreatic pseudocysts (*tip*), June, p. 274  
 cysticercosis (*sci*), January, p. 105  
 cytologic techniques in the diagnosis of bladder cancer (*tip*), January, p. 255  
 cytotoxic activity, natural, in breast cancer patients (*tip*), May, p. 374

## D

deafness in infancy, diagnosis of (*tip*), February, p. 413  
 defibrillator, external, automatic (*tip*), February, p. 394  
 dehydration in nursing home patients, risk factors for (*tip*), June, p. 223  
 depression  
     —adolescent, binge eating, purging and (*tip*), February, p. 382

    —chronic, imipramine therapy for (*tip*), June, p. 267  
     —chronic pelvic pain, and childhood sexual abuse (*tip*), March, p. 378  
     —digitalis preparations may be associated with (*med*), January, p. 251  
     —major, and coronary artery disease (*tip*), April, p. 362  
     —secondary (*tip*), April, p. 279  
 depressive disorders, major, phenobarbital, epilepsy and (*tip*), March, p. 332  
 dermatomyositis, idiopathic adult polymyositis and (*tip*), February, p. 431  
 dermatoses of pregnancy (*sci*), January, p. 131  
 dermoid cyst of the ovary (*sci*), June, p. 109  
 diabetes  
     —in mice, experimental treatment prevents (*news*), April, p. 380  
     —Type I, longstanding, psychiatric disorders in patients with (*tip*), March, p. 398  
 diabetes care, psychological issues in (*sci*), April, p. 151  
 diabetic foot ulcers, infected (*sci*), February, p. 283  
 diabetic and nondiabetic patients, angina in (*tip*), May, p. 320  
 diabetic patients, gangrene of the lower limbs in (*tip*), January, p. 306  
 dialysis, renal, home-based (*sci*), February, p. 203  
 diarrheal infections (*sci*), May, p. 195  
 digitalis, clinical use of (*tip*), April, p. 348  
 digitalis preparations may be associated with depression (*med*), January, p. 251  
 diltiazem overdose (*tip*), February, p. 376  
 disseminated intravascular coagulation, ketoconazole for (*tip*), January, p. 336

diuretic use in the elderly,  
hypomagnesemia associated  
with (*tip*), February, p. 443

Down's syndrome

- cardiac valve problems in adults  
with (*tip*), January, p. 358
- growth patterns in children with  
(*tip*), May, p. 380
- leukemia in infants with (*tip*),  
January, p. 259

drug reactions, adverse, in the elderly  
(*tip*), May, p. 294

DTP-polio vaccine, prophylaxis for  
reactions to (*tip*), January, p. 260

duodenal ulcers, bleeding, balloon  
tamponade shows promise in  
(*med*), January, p. 252

Dupuytren's contracture in an  
adolescent (*sci*), April, p. 133

dyslipoproteinemia in anorexia  
nervosa, weight gain does not  
correct (*med*), May, p. 289

## E

eating disorders, pharmacologic  
management of (*sci*), May,  
p. 157

EKG, exercise, thallium scintigraphy  
enhances predictive value of  
(*med*), January, p. 251

ectodermal dysplasia,  
cardiomyopathy and (*tip*), May,  
p. 331

ectopic pregnancy, spontaneous  
resolution of (*tip*), May, p. 333

elderly

- adverse drug reactions in (*tip*),  
May, p. 294
- hypomagnesemia associated  
with diuretic use in (*tip*),  
February, p. 443
- postural hypotension in (*tip*),  
January, p. 357
- prescribing for (*tip*), June, p. 250

elderly NSAID users,  
gastroesophageal bleeding in  
(*tip*), January, p. 349

electrical burns, neurologic  
consequences of, reported (*med*),  
May, p. 290

embolization therapy of head and  
neck lesions (*tip*), January, p. 294

empyema, bacterial, treatment of  
(*tip*), April, p. 337

encephalitis, herpes simplex (*sci*),  
February, p. 184

endometrial cells, normal,  
significance of, on Pap smear  
(*tip*), June, p. 290

endometriosis, treatment of, with an  
LHRH agonist (*tip*), May, p. 339

endoscopic sclerotherapy, cardiac  
complications of (*tip*), March,  
p. 402

endoscopic sphincterotomy,  
gallbladder complications after  
(*tip*), May, p. 318

endoscopy vs. barium enema for  
colon cancer detection (*tip*),  
June, p. 237

epidermal growth factor, human,  
enhances donor site healing  
(*med*), April, p. 273

epiglottitis, thermal, after swallowing  
hot beverages (*tip*), June, p. 283

epilepsy, phenobarbital, and major  
depressive disorders (*tip*),  
March, p. 332

Epstein-Barr virus,  
lymphoproliferative disease and  
(*tip*), February, p. 432

erythropoiesis, inhibition of, by  
uremic serum (*tip*), January,  
p. 342

erythropoietin for the anemia of  
chronic renal failure (*sci*), June,  
p. 211

esophageal cancer, nonsurgical  
treatment of (*tip*), May, p. 312

esophageal and gastric cancer, marker  
is found for (*med*), January,  
p. 252

esophageal varices, sclerotherapy for  
(*sci*), June, p. 147

esophagus

- cervical, penetrating injuries of  
(*tip*), April, p. 308
- spontaneous rupture of (*tip*),  
April, p. 324

estrogen receptors in malignant  
melanoma (*tip*), January, p. 329

ethanol injection, percutaneous,  
represents new treatment for  
liver cancer (*news*), February,  
p. 458

ethnicity as a risk factor in  
osteoporotic fractures (*tip*),  
January, p. 315

exercise

- prevents cardiac atrophy  
associated with weight loss  
(*med*), February, p. 350
- sudden cardiac death associated  
with (*tip*), May, p. 310

exercise capacity, effect of iron  
therapy on (*tip*), May, p. 304

extracorporeal membrane  
oxygenation is effective in  
neonates (*med*), June, p. 220

## F

facial pain, TMJ dysfunction and, in  
children (*tip*), February, p. 418

family history is key risk for breast  
cancer in young women (*med*),  
June, p. 219

fat pad signs in the diagnosis of subtle  
fractures (*sci*), January, p. 93

fatigue syndrome, chronic (*tip*), June,  
p. 268

FDA approvals, significant, in 1987  
(*FDA*), June, p. 297

feeding tubes, nasogastric,  
malpositioned, complications  
from (*tip*), May, p. 334

fetal medicine: a multidisciplinary  
approach (*tip*), March, p. 376

fetal risk in postdate pregnancies,  
assessment of (*tip*), May, p. 345

fever

- in children (*sci*), February, p. 127
- evaluation of neonates with a  
history of (*tip*), February, p. 439
- young child with (*sci*), June,  
p. 196

fibrillation, atrial, alcohol  
consumption and (*tip*), April,  
p. 282

fistula, perilymph (*tip*), April, p. 367  
 flow cytometric ploidy status in  
     ovarian cancer (*tip*), June, p. 231  
 fluoroquinolones (*sci*), May, p. 279  
 folk remedies, Mexican, and  
     conventional medical care (*sci*),  
     March, p. 257  
 foot ulcers, diabetic, infected (*sci*),  
     February, p. 283  
 football, youth, injuries in (*tip*), May,  
     p. 366  
 fractures

—common, from a fall on an  
     outstretched hand (*sci*),  
     February, p. 327  
 —subtle, fat pad signs in the  
     diagnosis of (*sci*), January, p. 93  
 frostbitten limbs, radionuclide  
     scanning helps save (*med*), April,  
     p. 273

## G

gallbladder complications after  
     endoscopic sphincterotomy (*tip*),  
     May, p. 318  
 gallbladder contraction and  
     progesterone receptors (*tip*),  
     May, p. 297  
 gangrene of the lower limbs in  
     diabetic patients (*tip*), January,  
     p. 306  
*Gardnerella vaginalis* in prepubertal  
     girls (*tip*), January, p. 278  
 gastric cancer, esophageal and,  
     marker is found for (*med*),  
     January, p. 252  
 gastric and colonic cancer, *ras*  
     oncogene p21 in (*tip*), March,  
     p. 320  
 gastroepiploic artery, right, for  
     coronary bypass grafts (*tip*),  
     March, p. 350  
 gastroesophageal bleeding in elderly  
     NSAID users (*tip*), January,  
     p. 349  
 gastroesophageal reflux  
     —in children (*sci*) April, p. 201  
     —in infants and children (*tip*),  
     February, p. 374

—respiratory complications of  
     (*sci*), February, p. 169  
 giardiasis, reactive arthritis associated  
     with (*tip*), April, p. 299  
 Greenfield filter, complications with  
     (*tip*), March, p. 410  
 growth failure in infancy (*tip*),  
     January, p. 330  
 gunshot wounds (*sci*), May, p. 231  
 gynecomastia and calcium channel  
     blockers (*tip*), May, p. 302

## H

H<sub>2</sub> antagonists enhance immunologic  
     function (*med*), April, p. 274  
 hand, outstretched, common  
     fractures from a fall on (*sci*),  
     February, p. 327  
 hand infections due to herpes simplex  
     (*tip*), April, p. 307  
 HBsAg and HIV antibody in blood  
     samples (*tip*), April, p. 299  
 HBV and HIV infection in workers,  
     employer guidelines on  
     preventing (*news*), January,  
     p. 366  
 head and neck, combination  
     chemotherapy for cancer of  
     (*tip*), May, p. 293  
 head and neck lesions, embolization  
     therapy of (*tip*), January, p. 294  
 head trauma, computed tomography  
     in children with (*tip*), February,  
     p. 435  
 headache angina (*tip*), February,  
     p. 381  
 headaches  
     —cluster (*sci*), April, p. 173  
     —refractory, MAO inhibitors are  
     useful for (*med*), April, p. 274  
 hearing loss, sensorineural, sudden  
     (*sci*), March, p. 207  
 heart attack deaths, aspirin and  
     streptokinase reduce (*med*),  
     June, p. 219  
 heart valves, porcine, failure of (*tip*),  
     February, p. 354  
 hematuria (*tip*), March, p. 344  
 hemochromatosis, primary, in  
     childhood (*tip*), February, p. 359

hemodialysis prosthesis, treatment of  
     vascular steal due to (*tip*), May,  
     p. 351  
 hepatitis B vaccination, duration of  
     immunity after (*tip*), June, p. 292  
 herpes simplex, hand infections due  
     to (*tip*), April, p. 307  
 herpes simplex encephalitis (*sci*),  
     February, p. 184  
 herpes zoster  
     —in children with acute  
     lymphocytic leukemia (*tip*),  
     April, p. 321  
     —neurologic complications of  
     (*sci*), March, p. 185  
 histamine-receptor antagonists for  
     melanoma nodules (*tip*),  
     February, p. 422  
 histoplasmosis, acute, in a family, an  
     outbreak of (*sci*), May, p. 128  
 HIV  
     —seropositivity for (*tip*), March,  
     p. 306  
     —transmission of (*tip*), April,  
     p. 308  
 HIV antibody, HBsAg and, in blood  
     samples (*tip*), April, p. 299  
 HIV embryopathy (*tip*), January,  
     p. 316  
 HIV exposure, protecting against, in  
     family practice (*sci*), January,  
     p. 213  
 HIV infection  
     —HBV and, in workers, employer  
     guidelines on preventing (*news*),  
     January, p. 366  
     —in pregnancy (*tip*), March, p. 352  
     —in the United States, CDC report  
     reflects trends of (*news*),  
     February, p. 454  
 HIV infection rates in patients at STD  
     clinics (*tip*), April, p. 328  
 HIV-positive patients may be at risk  
     for skin graft loss (*med*), May,  
     p. 290  
 HIV screening in pregnancy (*ed*),  
     April, p. 93  
 home-based renal dialysis (*sci*),  
     February, p. 203

hormone receptor status in premenopausal breast cancer (*tip*), January, p. 293

hormone therapy, continuous vs. sequential (*tip*), April, p. 374

hospitals, environmental cultures for *Legionella* in (*tip*), January, p. 270

human insulin preparations (*sci*), January, p. 245

Huntington's disease (*sci*), May, p. 105

hydration and sputum production in chronic bronchitis (*tip*), February, p. 353

hydrocolloid patch is useful in psoriasis treatment (*med*), February, p. 350

hydrofluoric acid burns (*sci*), March, p. 175

hyperactivity

- in children with attention deficit disorder (*tip*), May, p. 339
- in children: changing diagnostic criteria (*sci*), March, p. 129

hyperbaric oxygenation is not needed for burned children (*med*), April, p. 273

hypercalcemia and pancreatitis after renal transplantation (*tip*), March, p. 325

hypercholesterolemia, treatment of, remains suboptimal (*med*), June, p. 219

hyperparathyroidism

- bone loss in patients with (*tip*), February, p. 382
- cirrhosis, portacaval shunts and (*tip*), May, p. 302

hypertension

- ACE inhibitors as initial therapy for (*sci*), April, p. 139
- in women, alcohol consumption may lead to (*med*), February, p. 350

hypertensive emergencies and urgencies (*tip*), May, p. 312

hyperthermic syndromes (*sci*), June, p. 157

hyperthyroidism

- angiotensin-converting enzyme activity in (*tip*), January, p. 311
- in children, propylthiouracil treatment of (*tip*), February, p. 378

hypomagnesemia associated with diuretic use in the elderly (*tip*), February, p. 443

hypotension

- orthostatic (*sci*), June, p. 115
- postural, in the elderly (*tip*), January, p. 357

**I**

imipramine therapy for chronic depression (*tip*), June, p. 267

immunity after hepatitis B vaccination, duration of (*tip*), June, p. 292

immunization policy cannot eradicate measles in adolescents (*med*), May, p. 290

immunocompromised children, inactivated poliovirus vaccine in (*tip*), March, p. 306

immunosuppression, perioperative blood transfusion and (*tip*), May, p. 364

infancy

- cataracts in (*tip*), April, p. 368
- diagnosis of deafness in (*tip*), February, p. 413
- growth failure in (*tip*), January, p. 330

infants

- and children, gastroesophageal reflux in (*tip*), February, p. 374
- and children, streptococcal perianal disease in (*tip*), February, p. 427
- with Down's syndrome, leukemia in (*tip*), January, p. 259
- under one year of age, injuries to (*tip*), May, p. 378
- prenatal lidocaine and auditory evoked responses in (*tip*), May, p. 378

- very-low-birth-weight, and renal calcifications (*tip*), June, p. 262

infertility, male, varicoceles and (*sci*), February, p. 252

influenza A infection, rimantadine therapy for (*tip*), February, p. 362

injury (ies)

- of an extremity, factitious: a Munchausen variant (*sci*), June, p. 187
- to infants under one year of age (*tip*), May, p. 378
- in youth football (*tip*), May, p. 366

insulin preparations, human (*sci*), January, p. 245

interferon, recombinant, for renal cell carcinoma (*tip*), January, p. 361

intermittent claudication, pentoxifylline for treatment of (*tip*), March, p. 315

intracranial suppuration, drug therapy for (*sci*), February, p. 341

iodine-131, effect of, on parathyroid function (*tip*), February, p. 400

ipecaic-induced emesis after accidental drug overdose (*tip*), January, p. 311

iron concentrations, serum, in adolescent alcohol users (*tip*), May, p. 325

iron deficiency, severe lead poisoning and (*tip*), June, p. 277

iron therapy, effect of, on exercise capacity (*tip*), May, p. 304

ischemic stroke, acute, use of nimodipine in (*tip*), March, p. 390

## J

## K

Kawasaki disease, cardiac problems following (*tip*), April, p. 347

Kawasaki syndrome

- (*tip*), March, p. 361

- aspirin therapy in (*tip*), June, p. 288
- ketoconazole for disseminated intravascular coagulation (*tip*), January, p. 336
- ketoconazole side effects have been significantly overstated (*med*), March, p. 299
- killer cells, natural, in children with leukemia (*tip*), March, p. 332
- L**
- labetalol, intravenous, in acute aortic dissection (*tip*), January, p. 301
- labor
  - active management of, and decreased cesarean births (*tip*), May, p. 360
  - amniotic fluid prostaglandin D<sub>2</sub> and its role in (*tip*), January, p. 361
- language development, otitis media and (*sci*), May, p. 186
- laparatomy, second-look, in ovarian cancer (*tip*), January, p. 280
- latex agglutination kits for bacterial antigens (*tip*), January, p. 346
- lead poisoning, severe, and iron deficiency (*tip*), June, p. 277
- Legionella in hospitals, environmental cultures for (*tip*), January, p. 270
- leiomyomas in pregnancy (*sci*), February, p. 163
- leprosy presenting as peripheral neuropathy (*sci*), January, p. 153
- leukemia
  - educational achievement in survivors of (*tip*), June, p. 240
  - in infants with Down's syndrome (*tip*), January, p. 259
  - lymphocytic, acute, herpes zoster in children with (*tip*), April, p. 321
  - natural killer cells in children with (*tip*), March, p. 332
- leukoencephalopathy, progressive multifocal (*sci*), June, p. 129

- LHRH agonist, treatment of endometriosis with (*tip*), May, p. 339
- lidocaine, prenatal, and auditory evoked responses in infants (*tip*), May, p. 378
- lipid-lowering agents, combination therapy increases efficacy of (*med*), March, p. 300
- listeriosis, neonatal (*tip*), January, p. 262
- liver cancer, percutaneous ethanol injection represents new treatment for (*news*), February, p. 458
- lung abscesses, percutaneous catheter drainage of (*tip*), January, p. 329
- lung cancer, survival in (*tip*), June, p. 243
- lymphoma, T-cell, in AIDS (*tip*), June, p. 273
- lymphoproliferative disease and the Epstein-Barr virus (*tip*), February, p. 432
- M**
- macula densa-mediated renin secretion (*tip*), May, p. 366
- magnetic resonance imaging (*ed*), June, p. 91
- malignant melanoma
  - estrogen receptors in (*tip*), January, p. 329
  - late recurrence of (*sci*), April, p. 243
- mammogram(s)
  - screening (*tip*), March, p. 311
  - use of, to detect breast cancer (FDA), March, p. 415
- mammography, pain associated with (*tip*), June, p. 267
- MAO inhibitors are useful for refractory headaches (*med*), April, p. 274
- Marfan syndrome, cardiovascular features of (*tip*), February, p. 440
- marijuana
  - migraine headache and (*tip*), February, p. 367

- pulmonary hazards of (*tip*), May, p. 300
- mastectomy
  - radiotherapy and chemotherapy after (*tip*) February, p. 421
  - subcutaneous, may improve breast reconstruction results (*med*), June, p. 220
- measles in adolescents, immunization policy cannot eradicate (*med*), May, p. 290
- medulloblastoma, surgery and chemotherapy for (*tip*), February, p. 387
- melanoma cases, malignant, research and education may stem rise in (*news*), February, p. 444
- melanoma nodules, histamine-receptor antagonists for (*tip*), February, p. 422
- meningioma (*sci*), January, p. 111
- meningitis
  - bacterial, acute illness two weeks after (*tip*), January, p. 336
  - bacterial, with normal CSF (*tip*), February, p. 421
- mentally retarded patient, sexuality in (*sci*), February, p. 319
- mescaline: a survey (*sci*), April, p. 122
- metabolic disorders in newborns, state screening for (*sci*), April, p. 223
- metabolic factors complicate weight control (*news*), June, p. 306
- metered-dose inhalation of albuterol, nebulized vs. (*tip*), January, p. 357
- Mexican folk remedies and conventional medical care (*sci*), March, p. 257
- migraine headache and marijuana (*tip*), February, p. 367
- mineralocorticoid escape in primary aldosteronism (*tip*), January, p. 296
- minoxidil may be useful for female-pattern baldness (*med*), March, p. 299

mitral valve prolapse, ruptured chordae tendinae in (*tip*), March, p. 384

Mohs micrographic surgery (*sci*), March, p. 135

mononucleosis, infectious, in older adults (*tip*), June, p. 223

motor vehicle injuries, mandatory restraint use and (*tip*), January, p. 358

motor vehicle trauma, fatal infections after (*tip*), June, p. 232

#### MRI

—in patients with pulmonary atresia (*tip*), March, p. 398

—vs. myelography in diagnosing spinal metastases (*tip*), February, p. 353

multiparity, grand, obstetric risk factors in (*tip*), May, p. 372

Munchausen's syndrome by proxy (*tip*), February, p. 398

Munchausen variant: factitious injury of an extremity (*sci*), June, p. 187

murmurs, functional, vibratory (*tip*), February, p. 417

mycobacterial adenitis in children (*tip*), April, p. 354

*M. avium* complex in AIDS patients (*tip*), March, p. 384

*M. pneumoniae* infection, nonrespiratory complications of (*sci*), April, p. 127

myelography, MRI vs., in diagnosing spinal metastases (*tip*), February, p. 353

myeloma, occult, anion gap in patients with (*tip*), April, p. 362

myocardial infarction

—acute, plasma arginine vasopressin level after (*tip*), March, p. 341

—acute, prostacyclin infusion in (*tip*), June, p. 280

—acute, thrombolysis in (*tip*), June, p. 226

—acute, thrombolytic therapy in (*sci*), May, p. 265

—aspirin for prevention of (*tip*), March, p. 331

—ventricular septal defect after (*tip*), April, p. 352

myocardial ischemia, daily variability of (*tip*), February, p. 418

myocardial salvage, TPA and (*tip*), June, p. 244

myocarditis in children (*tip*), January, p. 267

myxoma, atrial, rapid growth of (*tip*), May, p. 298

## N

narcotic-exposed neonates, use of waterbeds in (*tip*), May, p. 293

near-drowning victim, management of (*sci*), May, p. 251

nebulized vs. metered-dose inhalation of albuterol (*tip*), January, p. 357

neck, head and, combination chemotherapy for cancer of (*tip*), May, p. 293

neck lesions, head and, embolization therapy of (*tip*), January, p. 294

needle aspiration biopsy of solitary pulmonary masses (*tip*), January, p. 349

neonatal listeriosis (*tip*), January, p. 262

neonates

—extracorporeal membrane oxygenation is effective in (*med*), June, p. 220

—with a history of fever, evaluation of (*tip*), February, p. 439

—narcotic-exposed, use of waterbeds in (*tip*), May, p. 293

neuroleptic malignant syndrome (*sci*), February, p. 296

neurologic complications of herpes zoster (*sci*), March, p. 185

neurologic consequences of electrical burns reported (*med*), May, p. 290

neurologic effects, pulmonary and, of amiodarone therapy (*tip*), January, p. 255

neurologic syndromes in pediatric AIDS (*tip*), April, p. 367

neuropathy, peripheral, leprosy presenting as (*sci*), January, p. 153

newborns

—asymptomatic, and risk of cerebral palsy (*tip*), March, p. 315

—state screening for metabolic disorders in (*sci*), April, p. 223

nimodipine, use of, in acute ischemic stroke (*tip*), March, p. 390

nipple, supernumerary, clinical significance of (*tip*), April, p. 293

nitroglycerin patch may be better than oral or ointment forms (*med*), April, p. 274

noncholera vibrios, soft tissue infections due to (*sci*), February, p. 193

nondiabetic patients, diabetic and, angina in (*tip*), May, p. 320

nonnarcotic analgesic is effective for postoperative pain (*med*), May, p. 289

nonrespiratory complications of *M. pneumoniae* infection (*sci*), April, p. 127

norfloxacin (*tip*), June, p. 246

NSAID users, elderly, gastroesophageal bleeding in (*tip*), January, p. 349

nursing home patients, risk factors for dehydration in (*tip*), June, p. 223

nursing homes, improving the quality of life in (*sci*), February, p. 241

## O

obesity in early life, trends of (*tip*), April, p. 357

obstetric risk factors in grand multiparity (*tip*), May, p. 372

organ donation (*ed*), January, p. 88

organic dust toxic syndrome (*tip*), January, p. 345

osteomyelitis, nonhematogenous (*tip*), April, p. 360

osteoporotic fractures, ethnicity as a risk factor in (*tip*), January, p. 315

otitis media

- acute, antimicrobial agents for (*tip*), February, p. 404
- acute, duration of treatment of (*tip*), April, p. 370
- and language development (*sci*), May, p. 186

ovarian cancer

- acute, second-look laparotomy in (*tip*), January, p. 280
- acute, survival in (*tip*), March, p. 374
- flow cytometric ploidy status in (*tip*), June, p. 231

ovary, dermoid cyst of (*sci*), June, p. 109

overdose, drug, accidental, ipecac-induced emesis after (*tip*), January, p. 311

oxygen treatment, home, of bronchopulmonary dysplasia (*tip*), January, p. 289

**P**

pacemakers, cardiac, unwarranted (*tip*), March, p. 322

pain

- associated with mammography (*tip*), June, p. 267
- postoperative, nonnarcotic analgesic is effective for (*med*), May, p. 289

pancreatic cancer, serum CA 19-9 after surgery for (*tip*), February, p. 403

pancreatic pseudocysts, acute and chronic, CT findings in (*tip*), June, p. 274

pancreatitis, hypercalcemia and, after renal transplantation (*tip*), March, p. 325

panic disorder, blood pressure monitoring in (*tip*), February, p. 417

Pap smear(s)

- and cervigrams, comparison of (*tip*), June, p. 249
- in men with urethritis (*tip*), April, p. 348

—significance of normal endometrial cells on (*tip*), June, p. 290

parathyroid function, effect of iodine-131 on (*tip*), February, p. 400

parvovirus B19 infection (*tip*), January, p. 335

pediatric infections, serious, outpatient treatment of (*tip*), March, p. 404

pelvic pain, chronic, depression and childhood sexual abuse (*tip*), March, p. 378

pentoxifylline for treatment of intermittent claudication (*tip*), March, p. 315

percutaneous catheter drainage of lung abscesses (*tip*), January, p. 329

perianal disease, streptococcal, in infants and children (*tip*), February, p. 427

pericardial effusion associated with breast cancer (*tip*), January, p. 273

perilymph fistula (*tip*), April, p. 367

perinatal care, cerebral palsy and (*tip*), May, p. 309

peritonitis, bacterial, spontaneous (*sci*), March, p. 223

pertussis vaccination (*sci*), March, p. 231

pertussis vaccine, acellular (*tip*), April p. 285

phenobarbital, epilepsy and major depressive disorders (*tip*), March, p. 332

phenylpropanolamine can have serious effects in certain patients (*news*), May, p. 390

pigmented skin lesions, punch biopsy for diagnosis of (*sci*), June, p. 123

*Plasmodium falciparum*, chloroquine-resistant (*tip*), March, p. 318

pleural fluid pH (*tip*), April, p. 337

pneumopericardium, cardiac tamponade due to (*tip*), April, p. 327

pneumothorax

- spontaneous, and physical activity (*tip*), March, p. 361
- supine (*tip*), March, p. 394

polidocanol shows promise in sclerotherapy for telangiectasia (*med*), March, p. 299

polio vaccine, DTP, prophylaxis for reactions to (*tip*), January, p. 260

poliovirus vaccine, inactivated, in immunocompromised children (*tip*), March, p. 306

polyarteritis nodosa (*tip*), February, p. 398

polychlorinated biphenyls, nonoccupational exposure to (*sci*), January, p. 203

polycythemia

- complicating renal transplantation (*tip*), January, p. 260
- smoking and (*tip*), June, p. 234

polymyositis, idiopathic adult, and dermatomyositis (*tip*), February, p. 431

porcine heart valves, failure of (*tip*), February, p. 354

portacaval shunts, cirrhosis, and hyperparathyroidism (*tip*), May, p. 302

postdate pregnancies, assessment of fetal risk in (*tip*), May, p. 345

postpartum hemorrhage (*sci*), March, p. 111

post-traumatic stress, drug therapy for (*tip*), June, p. 283

post-traumatic stress disorder in Vietnam veterans (*sci*), February, p. 145

pregnancy

- aggressive management of cholecystitis during (*tip*), January, p. 280
- alcohol use during (*tip*), January, p. 339

- dermatoses of (*sci*), January, p. 131
- ectopic, spontaneous resolution of (*tip*), May, p. 333
- HIV infection in (*tip*), March, p. 352
- FIV screening in (*ed*), April, p. 93
- leiomyomas in (*sci*), February, p. 163
- prenatal screening (*sci*), May, p. 175
- progesterone receptors, gallbladder contraction and (*tip*), May, p. 297
- propylthiouracil therapy and cutaneous vasculitis (*tip*), January, p. 324
- propylthiouracil treatment of hyperthyroidism in children (*tip*), February, p. 378
- prostacyclin infusion in acute myocardial infarction (*tip*), June, p. 280
- prostaglandin D<sub>2</sub>, amniotic fluid, and its role in labor (*tip*), January, p. 361
- proteinuria and obstructive sleep apnea syndrome (*tip*), April, p. 279
- psoriasis treatment, hydrocolloid patch is useful in (*med*), February, p. 350
- psychiatric disorders in patients with longstanding Type I diabetes (*tip*), March, p. 398
- psychiatric problems, communicating with patients who have (*sci*), January, p. 161
- psychologic complaints, somatic and, diagnostic schema for (*sci*), February, p. 139
- psychologic issues in diabetes care (*sci*), April, p. 151
- pulmonary atresia, MRI in patients with (*tip*), March, p. 398
- pulmonary embolism in cancer patients (*tip*), March, p. 393
- pulmonary hazards of marijuana (*tip*), May, p. 300

- pulmonary masses, solitary, needle aspiration biopsy of (*tip*), January, p. 349
- pulmonary and neurologic effects of amiodarone therapy (*tip*), January, p. 255
- pulmonary nodules, solitary (*tip*), May, p. 355
- pulmonary trunk stenosis (*tip*), March, p. 368

## Q

## R

- radiographic features of respiratory viral infections (*tip*), April, p. 300
- radionuclide scanning helps save frostbitten limbs (*med*), April, p. 273
- radiotherapy and chemotherapy after mastectomy (*tip*), February, p. 421
- radon (*sci*), February, p. 233
- rectal cancer, sexual function after surgery for (*tip*), February, p. 443
- refractory headaches, MAO inhibitors are useful for (*med*), April, p. 274
- renal calcifications, very-low-birth-weight infants and (*tip*), June, p. 262
- renal cell carcinoma
  - bilateral (*sci*), May, p. 121
  - recombinant interferon for (*tip*), January, p. 361
  - with venous involvement (*tip*), January, p. 315
- renal failure, chronic, erythropoietin for the anemia of (*sci*), June, p. 211
- renal transplantation
  - hypercalcemia and pancreatitis after (*tip*), March, p. 325
  - polycythemia complicating (*tip*), January, p. 260
- renin secretion, macula densa-mediated (*tip*), May, p. 366

- respirators, industrial: certifying the worker (*sci*), January, p. 117
- respiratory complications of gastroesophageal reflux (*sci*), February, p. 169
- respiratory infections
  - acute, in children (*tip*), February, p. 393
  - upper, use of antihistamines for (*tip*), June, p. 273
- respiratory morbidity, circadian variations in (*tip*), January, p. 277
- respiratory syncytial virus infections in children (*tip*), March, p. 412
- respiratory tract illness, lower, in the first two years of life (*tip*), April, p. 340
- respiratory viral infections, radiographic features of (*tip*), April, p. 300
- restenosis, coronary artery, in cigarette smokers (*tip*), May, p. 328
- restraint use, mandatory, and motor vehicle injuries (*tip*), January, p. 358
- retinal crystals and oral tanning agents (*sci*), March, p. 125
- rheumatoid arthritis: a pharmacologic overview (*sci*), March, p. 145
- rhinitis, allergic (*sci*), April, p. 251
- rimantadine therapy for influenza A infection (*tip*), February, p. 362
- rubeola (*sci*), February, p. 175

## S

- schizophrenia-like illness after age 45 (*tip*), May, p. 298
- school absence and cardiac disease (*tip*), March, p. 325
- sciatica, back pain and (*tip*), May, p. 355
- scintigraphy, thallium, enhances predictive value of exercise ECG (*med*), January, p. 251
- sclerosing cholangitis in childhood (*tip*), March, p. 366

sclerotherapy

- for esophageal varices (*sci*), June, p. 147
- for telangiectasia, polidocanol shows promise in (*med*), March, p. 299

scombroid fish poisoning (*tip*),

March, p. 389

scombroid poisoning (*sci*), April, p. 163

screening

- mass, results of, for colorectal cancer are reported (*med*), March, p. 349
- prenatal (*sci*), May, p. 175
- state, for metabolic disorders in newborns (*sci*), April, p. 223

scrotum, acute (*sci*), March, p. 239

scuba diving injuries (*sci*), June, p. 135

sensorineural hearing loss, sudden (*sci*), March, p. 207

sexual abuse

- childhood, chronic pelvic pain, depression and (*tip*), March, p. 378
- of children and maternal responses (*tip*), June, p. 224

sexual complications of cancer treatment (*sci*), March, p. 159

sexual function after surgery for rectal cancer (*tip*), February, p. 443

sexuality in the mentally retarded patient (*sci*), February, p. 319

Sheehan's syndrome (*sci*), January, p. 223

shinsplints (*sci*), February, p. 155

short stature, child with (*sci*), January, p. 230

sickle cell disease, acute chest syndrome in children with (*tip*), May, p. 377

single-patient clinical trial (*sci*), March, p. 195

skin graft loss, HIV-positive patients may be at risk for (*med*), May, p. 290

sleep apnea in adults with tonsillar hypertrophy (*tip*), March, p. 318

sleep apnea syndrome, obstructive, proteinuria and (*tip*), April, p. 279

sleep deprivation and performance in surgical residents (*tip*), March, p. 349

sleep disorders and medical illness (*tip*), April, p. 302

sleep disruptions in young children, reducing (*tip*), May, p. 382

smokers, cigarette, coronary artery restenosis in (*tip*), May, p. 328

smoking

- and oral contraceptives (*tip*), January, p. 346
- passive (*sci*), May, p. 212
- passive, increases coronary disease risk in pubertal boys (*med*), January, p. 251
- and polycythemia (*tip*), June, p. 234

smoking cessation, physician's role in (*tip*), April, p. 330

soft tissue infections due to noncholera vibrios (*sci*), February, p. 193

somatic and psychologic complaints, diagnostic schema for (*sci*), February, p. 139

spinal metastases, diagnosing, MRI vs. myelography in (*tip*), February, p. 353

splenic abscess (*tip*), February, p. 396

sputum production, hydration and, in chronic bronchitis (*tip*), February, p. 353

STD clinics, HIV infection rates in patients at (*tip*), April, p. 328

sternoclavicular dislocation (*sci*), May, p. 137

streptococcal bacteremia, Group A beta-hemolytic (*tip*), February, p. 428

streptokinase, aspirin and, reduce heart attack deaths (*med*), June, p. 219

stroke, alcohol, and coronary artery disease (*sci*), March, p. 217

subclavian artery injury (*tip*), January, p. 290

sudden death in young adults (*tip*), June, p. 256

suicide

- marital status and risk of (*tip*), June, p. 280
- prevalence in patients with AIDS (*tip*), June, p. 237

sunglasses, protective effects of (*tip*), April, p. 332

surgery and chemotherapy for medulloblastoma (*tip*), February, p. 387

swallowing hot beverages, thermal epiglottitis after (*tip*), June, p. 283

synovitis, villonodular, pigmented (*sci*), April, p. 195

T

tachycardia

- spontaneous, and atrial natriuretic peptide (*tip*), January, p. 324

- ventricular, criteria for the diagnosis of (*tip*), April, p. 358

tanning agents, oral, retinal crystals and (*sci*), March, p. 125

telangiectasia, polidocanol shows promise in sclerotherapy for (*med*), March, p. 299

terfenadine and theophylline, concomitant use of, is safe (*med*), May, p. 289

theophylline, terfenadine and, concomitant use of, is safe (*med*), May, p. 289

thoracoscopy for pleural disease (*tip*), April, p. 357

thrombolysis in acute myocardial infarction (*tip*), June, p. 226

thrombolytic therapy

- in acute myocardial infarction (*sci*), May, p. 265
- emergency, protocol reduces time to (*med*), March, p. 300

- in vascular occlusive disease (*tip*), March, p. 374
- thrombus, right atrial (*tip*), January, p. 352
- thyroid cancer
  - aerodigestive tract invasion by (*tip*), June, p. 278
  - diagnostic imaging techniques in (*tip*), June, p. 238.
- thyroiditis, suppurative, in children (*tip*), February, p. 410
- tick-borne diseases (*sci*), June, p. 95
- 'tin ear' syndrome (*tip*), June p. 232
- tissue plasminogen activator for coronary thrombosis (*sci*), March, p. 291
- TMJ dysfunction and facial pain in children (*tip*), February, p. 418
- tonsillar hypertrophy, sleep apnea in adults with (*tip*), March, p. 318
- Tourette syndrome (*sci*), April, p. 115
- toxic shock syndrome, nonmenstrual cases of (*tip*), May, p. 371
- TPA and myocardial salvage (*tip*), June, p. 244
- transplantation
  - renal, hypercalcemia and pancreatitis after (*tip*), March, p. 325
  - renal, polycythemia complicating (*tip*), January, p. 260
- treadmill exercise, arm vs. (*tip*), March, p. 349
- tricyclic antidepressant blood levels (*sci*), March, p. 251
- trigeminal neuralgia (*tip*), January, p. 301
- tubo-ovarian abscess: a study of 17 patients (*sci*), April, p. 181

## U

uremic serum, inhibition of erythropoiesis by (*tip*), January, p. 342

urethral catheter(s)
 

- long-term, in older women (*sci*), April, p. 103
- time of removal of (*tip*), March, p. 305

urethritis, Pap smears in men with (*tip*), April, p. 348

urinary anion gap, use of (*tip*), June, p. 284

urinary tract infections, research continues to improve treatment of (*news*), February, p. 446

## V

vaccination, pertussis (*sci*), March, p. 231

vaginal birth after cesarean delivery (*sci*), June, p. 167

vaginal colonization with yeast (*tip*), April, p. 293

varicella-zoster infection in children with cancer (*tip*), March, p. 401

varicoceles and male infertility (*sci*), February, p. 252

vascular disease, peripheral, calcium channel blockers for (*tip*), April, p. 314

vascular occlusive disease, thrombolytic therapy in (*tip*), March, p. 374

vascular steal due to hemodialysis prosthesis, treatment of (*tip*), May, p. 351

vascular surgery, continuous epidural anesthesia in (*tip*), February, p. 427

vasculitis
 

- cerebral, induced by cocaine (*tip*), January, p. 316
- cutaneous, propylthiouracil therapy and (*tip*), January, p. 324

VDRL test, positive, asymptomatic patient with (*sci*), January, p. 185

ventricular hypertrophy, left (*tip*), June, p. 249

ventricular septal defect(s)
 

- after myocardial infarction (*tip*), April, p. 352
- spontaneous closure of (*tip*), June, p. 261

vibratory functional murmurs (*tip*), February, p. 417

Vietnam veterans, post-traumatic stress disorder in (*sci*), February, p. 145

villonodular synovitis, pigmented (*sci*), April, p. 195

viral infections, respiratory, radiographic features of (*tip*), April, p. 300

## W

waterbeds, use of, in narcotic-exposed neonates (*tip*), May, p. 293

weight control, metabolic factors complicate (*news*), June, p. 306

weight gain does not correct dyslipoproteinemia in anorexia nervosa (*med*), May, p. 289

well-baby examination (*sci*), January, p. 167

workers' compensation, a practical approach to (*sci*), April, p. 233

## X

x-rays, chest, preoperative (*tip*), March, p. 394

## Y

yeast, vaginal colonization with (*tip*), April, p. 293

## Z

zinc deficiency and zinc toxicity (*sci*), April, p. 257
